

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

TUNDRA VIETNAM FUND, CLASS D, USD
ISIN: SE0005 797 123

TUNDRA FONDER AB, Reg.no: 556838-6303

OBJECTIVES AND INVESTMENT POLICY

The objective of the fund is to provide financial exposure to economic development in Vietnam and to provide its unitholders with a maximum long-term return on their investment given the fund's level of risk.

At least 90 percent of the net asset value of the fund must be invested in equities and equity-related transferable securities issued by companies that have their registered office in, or have their principal assets in, or conduct their principal operating activities in Vietnam. Up to 10 percent of the net asset value of the fund may be invested in equities and equity-related transferable securities issued by companies who do not have their registered office in, or do not have their principal assets in, or do not conduct their principal operating activities in Vietnam. Notwithstanding the above restrictions, the fund may always hold the cash and cash equivalent necessary to conduct management of the fund, but to a maximum of 20 percent of the net asset value of the Fund.

The fund may invest up to 10 percent of the net asset value in other funds.

The fund may invest in derivatives to facilitate the day-to-day trade.

The fund takes into account aspects such as corporate governance, environmental and social issues as part of the investment process. The principles from international guidelines are applied (UN Global Compact, Tripartite Declaration of Principles concerning Multinational Enterprises and Social Policy and OECD Guidelines for Multinational Enterprises). Companies that are involved in controversial weapons are also excluded.

The fund does not pay dividends. The share class is priced in USD. Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Requests to buy or redeem fund units can be made on any Swedish banking day before 2.30 pm. Purchases take place at the price established on the first banking day following the day on which the request is received and cleared funds are credited to the fund's bank account. Redemptions take place at the price established on the first banking day following the day on which the fund management company receives the request.

RISK AND REWARD PROFILE

Typically lower reward

Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk and reward indicator illustrates the link between risk and potential returns from an investment in the fund. If the fund's history is shorter than five years relevant index has been added to the calculation.

This fund is in risk category 5, which means a high risk of increases and decreases in the value of units. Risk category 1 does not mean that the fund is risk free. The fund may over time move towards the left or right of the scale. This is because the indicator is based on historical data that may not be a reliable indication of future risk and reward.

The fund invests mainly in companies listed on the Vietnamese stock market. This is generally associated with very high risk, but also the potential for very high reward. The indicator mainly reflects rises and falls for the shares in which the fund invests.

The indicator illustrates the most substantial risks in the fund, but not the risk, under extreme circumstances on the stock markets, of not being able to deposit or withdraw an investment from the fund within the indicated time (liquidity risk). Liquidity risk is a category of risk that is particularly high on the stock market in Vietnam. The fund management company wishes to particularly emphasize the importance of investing only capital that can be tied up for a very long period in this fund.

CHARGES

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	1.00%

This is the **maximum** that might be taken out of your money before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	2.54%
-----------------	-------

Charges taken from the fund under certain specific conditions.

Performance fee	None
-----------------	------

The ongoing charges you pay are used to pay the cost of running the fund, including the cost of marketing and distribution. These charges reduce the potential return of your investment.

The entry and exit charges shown are maximum figures. **At present, the entry and exit charges are 0 percent.** Ask your financial advisor about entry and exit charges.

The ongoing charges may vary from year to year. The current ongoing charges is based on the period from January 1st 2017 to December 31st 2017.

PAST PERFORMANCE USD

Performance is calculated after fees. Values are calculated in USD.

Past performance is not necessarily an indicator for future performance.

The share class was launched in 2015. There is thus insufficient data to provide a useful indication of past performance to investors.
