

### ABOUT THE FUND

Vietnam is one of the fastest growing economies in South East Asia. Following the economic and political reforms under the Doi Moi Policy, launched in 1986, rapid economic growth and development transformed Vietnam from one of the world's poorest nations to a lower middle-income country. With a population of almost 100m and a high literacy rate, the country offers an attractive labour market. Vietnam has successfully attracted a large amount of Foreign Direct Investment (FDI) and has turned into a key manufacturing hub of mobile phones and other electronic products.

The fund is managed according to Tundra's active stock picking philosophy and backed by a research office in Ho Chi Minh. Investments are based on an ESG approach where each investment has to comply with the UN Global Compact with regards to human rights, labour rights, corporate governance and environmental impacts. The fund is registered in Sweden and is fully UCITS compliant. Read more about latest developments [here](#).
