TUNDRA SUSTAINABLE FRONTIER FUND, Class A, SEK

TUNDRA FONDER AB, Reg. no.: 556838-6303

ISIN: SE0004 211 282

OBJECTIVES AND INVESTMENT POLICY

The objective of the fund is to provide financial exposure to economic development in emerging markets and frontier markets and to provide its unit holders with a maximum long-term return on their investment. The investment strategy is global and diversified and thus not limited to any particular sector. The benchmark index is MSCI FM ex GCC Net Total Return Index (SEK).

At least 80 percent of the net asset value of the fund must be invested in equities or equity-related transferable securities issued by companies that are located in, or conduct their principal operating activities in, emerging markets and/or frontier markets. The fund may invest up to 20 percent of its net asset value in equity or equity-related transferable securities issued by companies that are classified by MSCI as developed markets. Notwithstanding the above restrictions, the fund may always hold the cash and cash equivalents necessary to conduct management of the fund, but to a maximum of 20 percent of the net asset value of the fund.

The fund takes into account aspects such as corporate governance, environmental and social issues as part of the investment process. The principles from international guidelines are applied (UN Global Compact, Tripartite Declaration of

Principles concerning Multinational Enterprises and Social Policy and OECD Guidelines for Multinational Enterprises). The fund does not invest in companies with an exposure exceeding five percent (defined as percent of total turnover) to sectors such as alcohol, pornography, tobacco, weapon, commercial gambling, extraction/production where the raw material mainly consist of fossil fuels or nuclear power. Companies that are involved in controversial weapons are excluded.

The share class does not pay dividends.

The subscription and redemption currency of this share class is SEK.

Recommendation: this fund may not be appropriate for investors who plan to redeem invested capital within 5 years.

Requests to subscribe to or redeem fund units can be made on any Swedish banking day before 2.30pm CET. Subscriptions take place at the price established on the banking day the request is received and capital has been credited to the fund's bank account. Redemptions take place at the price established on the banking day on which the fund management company receives the request.

RISK AND REWARD PROFILE

The risk and reward indicator illustrates the link between risk and potential returns from an investment in the fund. If the funds history is shorter than five years relevant index has been added to the calculation.

This fund is in risk category 5, which means a high risk of increases and decreases in the value of units. Risk category 1 does not mean that the fund is risk free. The fund may over time move towards the left or right of the scale. This is because the indicator is based on historical data that may not be a reliable indication of future risk and reward.

The fund invests mainly in companies listed on emerging markets and frontier markets. This is generally associated with very high risk, but also the potential for very high reward. The indicator mainly reflects rises and falls for the shares in which the fund invests.

The indicator illustrates the most substantial risks in the fund, but not the risk, under extreme circumstances on the stock markets, of not being able to deposit or withdraw an investment from the fund within the indicated time (liquidity risk).
