

### ABOUT THE FUND

Tundra Pakistan Fund is a Pakistan specific equity fund. It is trying to capture Pakistan's future economic growth, the world's 6th most populous country, home to almost 200m people. Launched in October 2011, the fund has been one of the world's best performing equity funds. Pakistan's international media image has been that of a hotbed of terrorism and instability. Tundra, however, has found a young, skilled, fast-growing population, and some of the most exciting and cheap companies we have encountered during our years in emerging and frontier markets. Almost 600 companies are listed on the Pakistan Stock Exchange. The Pakistani equity market is one of the best performing market globally over the past 20 years but valuations are still among the lowest. The fund is managed according to Tundra's active stock picking philosophy. Investments are based on an ESG approach. Each investment must comply with the UN Global Compact with respect to human rights, labour rights, corporate governance and environmental impacts. The fund is registered in Sweden and is fully UCITS compliant. Read more about latest developments [here](#).
