in the translation the Swedish version will prevail.

Disclaimer: The state of the origin of the fund is Sweden. This document may only be distributed in or from Switzerland to qualified investors within the meaning of Art. 10 Para. 3,3bis and 3ter CISA. The representative in Switzerland is ACOLIN Fund Service AG, Affolternstrasse 56, CH-8050 Zurich, whilst the Paying Agent is Bank Vontobel Ltd, Gotthardstrasse 43, CH-8002 Zurich. The basic documents of the fund as well as the annual report may be obtained free of charge at the registered office of the Swiss Representative.

## Management report

This is a translation of the Swedish original. If any conflict occurs in the translation the Swedish version will prevail. The Board of Directors and the CEO of Tundra Fonder AB, 556838-6303, hereby submit the Annual report for the period 2017-01-01 – 2017-12-31 for Tundra Pakistan Fund, 515602-4787.

## General development

### The fund's performance

Tundra Pakistan Fund fell 35.25% (SEK) during 2017, vs the fund's benchmark that fell 24.44% (SEK).

### The fund's net assets development

Assets under management at December 31<sup>st</sup> 2017 amounted to SEK 459.9 million, which represents a decrease of SEK 556.5 million compared to SEK 1 016.3 million at December 31<sup>st</sup> 2016.

The value of issued fund shares for share class A amounted to SEK 217.2 million, SEK 0.7 million for share class C, SEK 44.9 million for share class D and SEK 29.8 million for share class F while the value of redeemed fund shares for share class A amounted to SEK 425.8 million, SEK 28 407 for share class C, SEK 153.4 million for share class D and SEK 183 536 for share class F. The net issued amount hence amounted to SEK -208.6 million for share class A, SEK 649 613 for share class C, SEK -108.6 million for share class D and SEK 29.6 million for share class F.

## Market development

2017 began with rising expectations ahead of the upgrade from frontier markets status to emerging markets status by MSCI, with increased foreign portfolio inflows as a result. Instead, the upgrade surprisingly resulted in large outflows and increased concern for a worsening macroeconomic situation. As Prime Minister Nawaz Sharif was deprived of his post by the Supreme Court because of assets Sharif's family held abroad, as evidenced by the Panama leaks, all the positive momentum in the initial part of the year disappeared. A perceived lack of clear political leadership meant that investors' focus was shifted to the increasing current account deficit and a likely weakening of the currency. In the second week of December, the Central Bank allowed the Rupee to depreciate 5% and just before Christmas came two more important news: Former Prime Minister Nawaz Sharif openly stated that his brother Shahbaz Sharif (popular in the market) should become prime minister after elections and Pakistani military leadership stressed in a speech to the Senate that they did not intend to disrupt the democratic process. Overall, this meant a positive end to the year for the equity market.

## Fund management and outlook

Tundra Pakistan Fund did not escape the turbulent market development in Pakistan during 2017 and the fund fell 35.25% (SEK) net of fees, while the fund's benchmark index (MSCI Pakistan Net, SEK) fell 24.44%. The primary reasons for the fund underperforming the benchmark were the underweights in Consumer Staples and Consumer Discretionary. The underweights were motivated by the rising Current Account deficit and the political instability. Financials and Utilities were the primary positive contributors to relative performance during the year.

The outlook for 2018 looks more promising. In addition to the fact that the valuation of the market looks attractive relative to profit growth and risks, a number of question marks should be corrected during the year and reduce the market's risk premium. In chronological order, the year begins with elections to the Senate, where the governing party PML-N is expected to retain the majority. As we approach the important parliamentary elections in July 2018, we believe investors' focus will more and more be moved to the next five years' economic development which looks more promising than in many years.

### **Objectives and investment policy**

The fund management company's management of the fund is intended to generate financial exposure to economic development in Pakistan and to provide the unit holders with a maximum long-term return on their invested capital. The performance is benchmarked against MSCI Pakistan Net.

The fund takes into account aspects such as corporate governance, environmental and social issues as part of the investment process. The principles from international guidelines are applied (UN Global Compact, Tripartite Declaration of Principles concerning Multinational Enterprises and Social Policy and OECD Guidelines for Multinational Enterprises). Companies that are involved in controversial weapons are also excluded.

The fund is managed by an investment committee but with Tundra Fonder's Chief Investment Officer, Mattias Martinsson, as the lead portfolio manager.

### **Risks in the fund at year end**

The fund has a vast majority of its assets invested in Pakistan. A worse than expected development of the Pakistani economy or the earnings growth among listed companies in the country constitute the primary risk. The fund does not hedge its holdings to currency fluctuations which may affect returns adversely in case the Pakistan Rupee weakens.

### **Derivatives**

According to the fund rules, the fund has the right to invest in derivative instruments in order to make the management more efficient. The fund had no exposure to derivatives during 2017. To calculate the total exposure, the fund applies the so-called commitment approach on derivative instruments.

## Accounting principles and valuation of financial instruments

Amounts stated are in number of SEK if nothing else stated.

Tundra Fonder AB is a member of the Swedish Investment Fund Association and strives to comply with the Association's guidelines. During 2017, Tundra Fonder AB was compliant with all guidelines with the exception of the recommendation that at least half of an asset manager's members of the Board of Directors should be independent directors as three of seven Board members were considered to be independent at the end of 2017.

### Accounting principles

The fund applies the Mutual Funds Act, 2004:46 and the Financial Supervisory Authority's regulation of mutual funds (FFFS 2013:9) and applies the Swedish Investment Fund Association's guidelines.

### Valuation of financial instruments

The financial instruments are valued at market value according to the following order.

1. Financial instruments traded on an active market will be valued on the closing price at December 31<sup>st</sup> 2017. If this is a bank holiday, the most recent trading day prior to the bank holiday will be used.
2. If the financial instrument is not traded on an active market, the market value is derived from information from similar transactions that have taken place under market conditions.
3. Unless method 1 or 2 can be used, or are misleading, the market value is determined by a well-established valuation model.

### Key performance indicators

The fund follows the Swedish Investment Fund Association's guidelines on key performance indicators.

### Taxation in Pakistan

With current legislation, Pakistan is charging a capital gains tax on short-term trading. From July 1, 2017 the following capital gains taxation rules apply: For holdings acquired before July 1, 2016 capital gains tax is 15% on share gains for holdings held for a shorter period than 12 months, 12.5% for holdings held 12-24 months and 7.5% for holdings held 24-48 months. For holdings held for more than 48 months, the tax is 0% if acquired before July 1, 2012, otherwise 7.5%. The tax is calculated according to current legislation per holding according to FIFO (first-in first-out method). For holdings acquired after July 1, 2016 a 15% flat capital gains tax on all positions are applicable. The fund company has contracted KPMG in Pakistan as tax consultant and will calculate and reserve daily for deferred and realized tax in the fund jointly. This means that unit holders may not pay local Pakistani tax despite the fact that their unit value has risen, and unit holders may pay local Pakistani tax even though their unit value has decreased. It may also mean that previously reserved taxes are returned to the fund without change in underlying holdings. Since the introduction, as of July 1, 2010, the tax has been revised on several occasions and may change again in the future, which implies a further risk.

### Remuneration

Remuneration and benefits to employees has been calculated based on the Company's principles which has been approved by the Board of Directors. During the financial year the Company applied a calculation based on that 20 percent of the Company's profit before tax is deposited as variable remuneration to employees.

In addition, the Company may make exceptions for individuals who contributed positive from a risk adjusted perspective as long as the Company does not run the risk of violating regulatory capital requirements or otherwise threaten to put the Company at a disadvantage situation.

Each year the Board of Directors revises the Company's remuneration policy. During the year minor linguistic adjustments has been made as well as adding reference to new law. These changes have not resulted in any substantial changes of the remuneration policy.

Please refer to the Company's website for the current remuneration policy: <http://www.tundrafonder.se/wp-content/uploads/2014/03/Executive-Summary-Remuneration-Policy-2016.pdf>

<b>Benefits paid to all employees in 2017</b>	<b>Amount in SEK</b>	<b>Number of employees</b>
Fixed salary	7 584 271	15
Variable remuneration to employees who are included in the number of employees and which have not been classified as special regulated staff	0	0
<b>Total: Fixed salary and number of employees</b>	<b>7 584 271</b>	<b>15</b>
<b>Benefits paid to particular regulated staff 2017</b>		
a) employees in senior strategic positions	2 308 699	2.5
b) employees with responsibility for control functions. Outsourced functions	0	0
c) risk takers	2 827 396	4.75
d) employees whose total compensation is equal to, or greater than, the total remuneration to someone in senior management	0	0

## Auditor's report

(Translation)

To the investors in Tundra Pakistan Fund, Corporate Identity Number 515602-4787

---

### Report on the annual report

#### *Opinions*

As auditors of Tundra Fonder AB, Corporate Identity Number 556838-6303, we have audited the annual report of Tundra Pakistan Fund for 2017.

In our opinion, the annual report has been prepared in accordance with the Swedish Mutual Fund's Act and Sweden's financial supervisory authority's ordinances on funds, and presents fairly, in all material respects, the financial position of Tundra Pakistan Fund as of 31 December 2017 and its financial results for the year in accordance with the Swedish Mutual Fund's Act and Sweden's financial supervisory authority ordinances on funds.

#### *Basis for opinions*

We conducted our audit in accordance with the International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. We are independent of the fund company in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### *Responsibilities of the Fund Company*

It is the fund company who is responsible for the preparation of the annual report and that it provides a fair presentation in accordance with the Swedish Mutual Fund's Act and Sweden's financial supervisory authority ordinances on funds. The fund company is also responsible for such internal control as they determine is necessary to enable the preparation of an annual report that is free from material misstatement, whether due to fraud or error.

#### *Auditor's responsibility*

Our objective is to obtain reasonable assurance about whether the annual report as a whole, is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with ISA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit

evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- obtain an understanding of the association's internal control relevant to my audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the fund company.
- evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We must inform the fund company of, amongst other matters, the planned scope and timing of the audit. We must also inform of significant audit findings during our audit, including any significant deficiencies in that internal control which we may have identified.
