

ABOUT THE FUND

Tundra Frontier Africa Fund invests in the fast-growing regions of Africa with a focus on Sub-Sahara and Egypt. The continent has undergone major changes over the past 15-20 years, characterised by rapid growth, democratic elections, foreign direct investment and a strong entrepreneurial spirit. Even though the continent's international image has not kept pace with its rapid development, and its stock markets are considered by most other fund managers to be too small and too difficult to engage with, we believe in the long-term potential of the less developed markets in Africa.

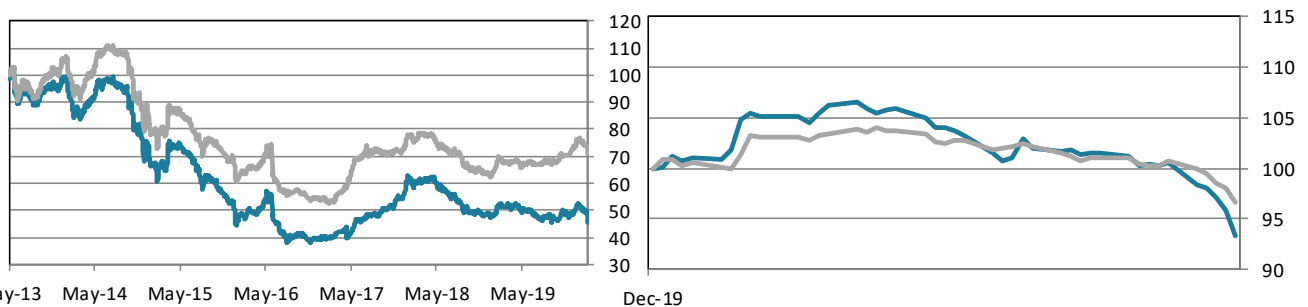

The fund is managed according to Tundra's active stock picking philosophy. Investments are based on an ESG approach where each investment has to comply with the UN Global Compact with regards to human rights, labour rights, corporate governance and environmental impacts. The fund is registered in Sweden and is fully UCITS compliant. Read more about latest developments [here](#).
